

**ROUT REBELS
AT MONTEREY.**

Federal Victory Is Celebrated
by the Populace.

Thousand Dead Are Left by
Fleeing Army.

All Preparations Are Made
for the Election.

(BY DIRECT WIRE TO THE TIMES.)
MEXICO CITY, Oct. 25.—[Exclusive Dispatch.] Details of the surprise assault on Monterey, lasting two days and ending in a complete victory for the Federal, came in late last night. Jesus Carranza with 3000 rebels, aided by several chiefs, attacked the city on Thursday morning. He was routed three times and stubbornly renewed the attack because he was completely defeated yesterday by the forces of Gen. Borri and others that arrived from Saltillo and Hipolito just at the critical moment of the battle. The rebels retreated precipitately north, followed by Federal cavalry and cannon discharges, and were literally slaughtered. They left over 1000 dead on the battlefield. All telegraphic communication with Monterey was cut because the battle and the fleeing army interrupted for thirty-six hours. Reports of the battle were sent overland by courier to the nearest telegraphic station. The rebels received 1000 reinforcements during the final battle yesterday from Lucio Blanco and occupied a brewery, a railroad station, mailers Nos. 1 and 2 of the steel plant and mail factory. Foreign property, which the Federals did not care to destroy with their cannon, stood in the way and made the fight more difficult with small arms.

STEAMSHIP EPIPHANY.
Citizens celebrated the victory by ringing the church bells and parading the streets with bands of music. The Federal officers and men will be promoted and rewarded. The captain of the Morro Castle, steamship, detained several days in Vera Cruz for disobeying an order of the district judge several months ago when Dr. Francisco Vasquez Gomez was aboard to leave the country to avoid arrest, has left port. The government excused his acts to avoid complications.

THE ELECTIONS.
All preparations have been completed for the national elections to take place tomorrow for President, Vice-President, Senators and Deputies. Their tickets are in the field for President and Vice-President. The candidates are: National Democratic party, Felix Diaz and Jose Luis Reyes; National Catholic party, Federico Gamboa and Eugenio Razon; the Liberal party, Manuel Cacho and Jesus Flores; Mexican Socialists, David de la Fuente and Andres Molina Enriquez.

While all preparations have been made, the Federal government has been unable to get the trouble of importance to Monterey.

MEXICO CITY NOTES.
Members of the Japanese Commission arrived at Vera Cruz for disembarking orders of the government. They are to be taken to the port of Zaroagosa, where they will steam for France to John De la Barra.

Special Japanese Ambassador Walter and C. M. Sturge, arrested at Chahuacano ranch for melting pesos into silver bars for exportation, were executed by the government although found with paraphernalia and bullion.

REBEL BOATS.
Constitutionalists Say They Have Advice That They Won at Monterey.

(BY A. P. DAY WIRE TO THE TIMES.)
BROWNSVILLE (Tex.) Oct. 25.—[Exclusive Dispatch.] This was the message received today by Constitutional Gen. Lucio Blanco at Matamoros, opposite here. It came from his chief of staff, Maj. Mufra, who is today at Reynosa, sixty miles from here on the railroad line to Monterey.

Communication over a field telephone which Constitutionalists say runs in their hands from Monterey, and stories of wounded and refugees arriving at points back of the front, confirms the city's fall, according to Matamoros advice.

The Constitutionalists began clearing in on Monterey October 15, with 3000 men under Pablo Gonzales, 1000 of the veterans of Torreon under Col. Cordero and 500 men under Col. Cos. Against this attacking army were pitted 2000 Federals.

The first skirmish was apparently at Monterey, twenty miles from Monterey, on October 15. That same day cannonading began about the city. Early in the fighting the Constitutionalists divided, part of them rushing to Monterey from the west and part from the east, one division getting into the city over the line of the International Railroad while the other captured San Luisito, a suburb.

A murderous artillery fire was said to have been poured across the city, killing or wounding many persons and destroying much property. Although reports did not specify, it seems that this big gun fire came from both sides.

Capt. Gomez is Garza, Constitutional, wounded at Monterey, who arrived at Matamoros today, said that.

Aren't You Glad You Live in California?

Chicago's first snow.

the Constitutionalists besiegers had only three machine guns.

Fighting was said to have been continuous from October 15 until last night. Loss of life is placed at one thousand, with another even thousand included. Whether the casualties included non-combatants as in the bombardment in Mexico City, the dispatches do not say.

Constitutionalists Gen. Mufra was probably fatally wounded in the opening day's fight, having been shot four times. Gen. Jesus Carranza, brother of the Constitutional leader, directed the campaign, which included an elaborate network of small forces scattered far to the north and the south of Monterey, to hold back relief from the city.

In the Morales fight, Capt. de la Garza said a Federal relief train carrying 150 soldiers was captured with all equipment. This train was from Tampasco, north of Monterey.

REBEL JUNTA ADVISES.
(BY A. P. DAY WIRE TO THE TIMES.)
EL PASO, Oct. 25.—Confirmation of the fall of Monterey was received today by the rebel junta here. The rebels, who were hurrying to the relief of Monterey, were defeated after a severe battle at La Jita by Augustin Castro.

Private dispatches to adherents of the Madero family also tell of the defeat of the rebels. The rebels were sent by Madero sympathizers at Nueva Laredo. They say the port of Laredo has been closed following the defeat of Federals at La Jita.

FROM A SPANISH PAPER.
(BY A. P. DAY WIRE TO THE TIMES.)
LAREDO (Tex.) Oct. 25.—A Spanish paper here published today an extra declaring that Constitutionalists captured the city of Laredo last night. These dispatches are alleged to have come from the Constitutional Gen. Blanco at Matamoros, who was in communication to within seven miles of Monterey.

NEW HAVEN WRECK.
Fifteen Persons Injured, One Woman Seriously, When a Train Leaves the Rails.

(BY A. P. NIGHT WIRE TO THE TIMES.)
WESTERLY (R. I.) Oct. 25.—Fifteen persons were injured, one woman seriously, when the Old Edge, an express train for Boston over the New York, New Haven and Hartford Railroad, went off the track on a curve at night. Heavy rain is believed to have undermined the roadbed, causing the rails to spread.

Bishop Parry of the Rhode Island diocese was a passenger. He was returning from the Episcopal Church convention in New York to his home in Providence. He was not hurt and helped take care of the injured.

TO WED SAN DIEGO MAN.
California Will Marry Lexington (Mass.) Girl and Go Home Tomorrow to Havana.

(BY A. P. NIGHT WIRE TO THE TIMES.)
LEXINGTON (Mass.) Oct. 25.—[Exclusive Dispatch.] Miss Mary Louise Studley of this town, and Francis T. Monroe of San Diego, Cal., are to be married here October 30, at the home of Mr. Monroe's nephew, Alonso J. Moulton. The Rev. Samuel Knowles will officiate.

Mr. Monroe, who is a real estate man in San Diego and a direct descendant of the Col. Monroe family, which has long been identified with the history of Lexington and Concord, will take his bride on a tour of southern California and Hawaii. He was for several years in business in Honolulu and has many friends there.

Private secretary to Herbert Barnes, owner of the Hotel Brunswick, Boston, arrived here today, said that.

**BACON EXPLAINS
MEXICO POLICY.**

"If Any Marines Are Landed
Land U. S. Marines."

Senator Is Believed to Speak
for President Wilson.

Declares This Country Has
Greatest Interests.

(BY A. P. DAY WIRE TO THE TIMES.)
PHILADELPHIA, Oct. 25.—Senator Bacon, chairman of the Committee on Foreign Relations, who arrived here today to attend the Congress Hall dedication, expressed his views on the Mexican situation brought about by the attitude of some European governments with reference especially to the possibility that marines might be landed. Senator Bacon's views are that if any marines have to be landed in Mexico, they should be American marines.

President Wilson himself was silent on Mexican matters, but inasmuch as Senator Bacon knows the administration's position sufficiently, it is not unlikely that some of these ideas will be included in President Wilson's forthcoming note to the powers against foreign interference in Mexico.

BACON'S VIEWS.
"The interests of the United States in Mexico and Mexican affairs are infinitely greater," said Senator Bacon, "than the interests of the other great powers. The European nations are principally concerned in the protection of material interests wherever their subjects or citizens in Mexico have investments or industrial enterprises and they naturally desire to see them protected. With them it is not a vital matter who extends that protection. In other words they are so far removed from the influences of the particular kind of government which may have authority in Mexico that that feature is not a matter of great vital concern to them. All they wish is protection for their property, subjects and citizens. With us, on the other hand, it is a matter of a vastly greater and more important interest. Our citizens have in the first place, more in the way of material interests than all of the other foreigners put together. In addition we have great interests which concern the Mexican situation alone, but we have also the further interest in the promotion and maintenance of governments of law in all countries on this hemisphere particularly those of Latin-America in proximity to us. It is of the utmost importance that whatever is done in Mexico should have a good effect on all these other countries on this hemisphere in discouraging revolution and disorder and encouraging governments of law and order. In other words, we should not be recognizing a government in Mexico founded on revolution and violence, but a premium on like methods of violence and usurpation of power."

"The sending of warships by other governments is a recognized policy in cases of great disorder where the subjects or citizens of a country have great interests needing protection. It would not dispute the right under ordinary conditions to land marines for personal property, but I think it would be inadvisable under the present circumstances for them to land marines in Mexico, and I think that might lead to unfortunate complications. I have no authority to speak for any one but myself, but I think if the subjects or citizens of any nation need protection in Mexico, on account of which, under ordinary circumstances marines would be landed, it would be far better to call on the United States for whatever protection required so that whatever may be absolutely necessary must be attended to by American marines. I say this because everyone must recognize that in the present delicate situation it is extremely important to avoid anything that would lead to produce the slightest conflict or friction between the United States and any one of these foreign governments."

INDIFFERENCE IN SONORA.
May Be Little Voting Except at Guaymas According to a Dispatch from Hermosillo.

(BY A. P. DAY WIRE TO THE TIMES.)
HERMOSILLO (Sonora, Mex.) Oct. 25.—Indifference marked the attitude of the people of Sonora toward the election of a President of Mexico, called for tomorrow by Huerta. There will be no election in Sonora—excepting in Guaymas, where the Federal soldiers are said to have received orders to control, quelled, and the Federalist officials reiterate the Federalist assertion of their leader, Gen. Venustiano Carranza, that the successful candidate tomorrow will not be recognized but "will be treated by the Constitutionalists adherents as a traitor to Mexico."

The conditions with regard to the election are the same in the other States now in rebellion, as they are in Sonora. There will be no voting, and the candidate chosen will not be recognized.

Gen. Carranza and his chief advisers declare that the election will be a farce and that despite his declaration to the contrary Huerta has so arranged matters that the ballot box will show him to be the practically unanimous choice of the electors for President.

FOUR YEARS OF PEACE.
It Will Not Last Much Longer in the Balkans, According to Bishop Nuelson.

(BY A. P. NIGHT WIRE TO THE TIMES.)
ST. LOUIS, Oct. 25.—Peace in the Balkans will not last four years, according to the bishop of St. Louis, I. Nuelson, who represents the Methodist Episcopal Church in Eastern Europe. This opinion was expressed yesterday in his report to the annual meeting of the church in annual session here. He championed the Bulgarians, and declared that the atrocities committed by them were not so great as those committed by the Serbians, Greeks and Turks.

The board tonight decided to send a delegation of bishops to attend the funeral of Mrs. Charles W. Fairbanks, wife of the former vice-president, who died in Indianapolis today.

THREATS TO GARY.
Steel Magnate Says They Are Merely the Vapors of Some Indignant Man.

(BY A. P. NIGHT WIRE TO THE TIMES.)
CHICAGO, Oct. 25.—Threatening telephone calls and messages to hotel apartments here of Elbert H. Gary, chairman of the United States Steel Corporation, caused the steel chief, it is reported, to call in the assistance of private detectives and to isolate his room from outside communication.

The most recent of the threatening communications is said to have been received this morning.

"I have taken the ordinary precautions," Mr. Gary is quoted as having said to one of the steel company presidents here. "This is only the vapors of an indignant man."

London Takes Initiative
Joint Attitude.

Newspapers Believe That
Will Be Smoothed Out.

(BY CABLE AND A. P. TO THE TIMES.)
PARIS, Oct. 25.—European views are taking place between the European nations on the large economic issues in Mexico with the object of defining common policies there, especially a attitude after the election, which is understood that the government in Washington has been desirous to result which the European nations might consider desirable.

The initiative in the matter is understood to come from London.

INTEREST IN WASHINGTON.
HEAR OF PARIS ACTS.

(BY CABLE AND A. P. TO THE TIMES.)
WASHINGTON, Oct. 25.—The cabinet officers as members of the capital today manifested an interest in the Paris dispatches of an exchange of views between the European nations on the large economic issues in Mexico with the object of defining common policies. President Wilson's Secretary Bryan, Dallas Secretary of the Treasury, and Secretary of the Interior, who were in Washington, were said to have been speaking with members of the cabinet on the latest developments. Other officials apparently did not regard the question as one of sufficient importance from any expression.

NEWSPAPER COMMENT.
FRENCH TAKES BROAD VIEW.

(BY CABLE AND A. P. TO THE TIMES.)
LONDON, Oct. 25.—The situation now occupies the chief place in the public mind in England. It is still held in official circles that the difference between the European nations on the large economic issues in Mexico with the object of defining common policies, and that they themselves when working with a new crew Thursday.

The government's attitude toward the situation is said to be one of the greatest regret that the British government has displayed in regard to Mexico.

It is pointed out by the English press that the British government has been slow to take action on the matter, and that the British government has been slow to take action on the matter.

The Westminster Observer, an organ, says that the British government has been slow to take action on the matter, and that the British government has been slow to take action on the matter.

FIRE MENACES
HELMET CREW

Two Blazes Hamper Work
Rescue at Dawson.

(BY A. NIGHT WIRE TO THE TIMES.)
DAWSON (N. M.), Oct. 25.—Menace of fire in the mine No. 2 of the Stag Canyon Fuel Company tonight confronted the government and mine rescue efforts. Two new electric motors of helmet men until they are fully smothered.

Tonight special helmet crews, full equipped with mine fire-fighting apparatus, are stationed at the shaft of the mine, ready to respond instantly to the first report of fire. Smoldering in the mine, it is feared, will burst into flames as soon as enough oxygen has been forced into the workings to permit combustion.

Several men tonight have failed to penetrate chamber No. 19 east, the mine in which many bodies are expected to be found. With fire fighting apparatus, they were unable to get into the mine, and their hands full during the day, in a result of these additional elements, several men working in the mine were brought to the surface today, making eighty-eight the number of recovered dead.

FRESH TAKES BROAD VIEW.
IST CABLE AND A. P. TO THE TIMES.
LONDON, Oct. 25.—The situation now occupies the most prominent place in the public mind and it is still held in official circles that the differences between the United States and England as to the Mexican situation are not so serious as they would seem to be. It is pointed out that the United States has been made known by Washington.

The greatest regret exists here that any signs of ill feeling could have been displayed in regard to the situation. It is pointed out by official circles that the United States has been made known by Washington.

GAZETTE'S OPINION.
The Westminster Gazette, a conservative organ, says that while the United States has great interests in Mexico, it cannot take the same attitude as the United States public opinion. It is pointed out that the United States has been made known by Washington.

VIEWS OF THE GLOBE.
The Globe in a long article says: "Great Britain has no doubt of intention of picking a quarrel with anybody over the question of Mexico."

JEALOUS, SLAYS HUSBAND.
Oakland Woman Falls in Attempt to Kill Rival Whom She Accuses of Alienation.

IST A. P. NIGHT WIRE TO THE TIMES.
OAKLAND, Oct. 25.—Jealous of her husband, A. C. Brown, a remittance man, Mrs. Millie Brown yesterday morning shot him dead in the bedroom of their home. After killing her husband Mrs. Brown fled to the home of her sister, Mrs. Marie Miller, who was accused of having alienated her husband's affections, and waited for her until evening, when she attempted to slay her, the revolver missing fire twice.

The woman then went to San Francisco, where she confided to Mr. Brown, William Gray at a department store that she had killed her husband. With her brother-in-law, W. N. Brown, an attorney, the Grays and J. P. Leicester, the five came to Oakland and discovered the body of Brown lying across the bed in the beautiful Piedmont district home of the couple.

The slain man was a son of the late Albert N. Brown, a wealthy attorney of this city, who left an estate of \$100,000. Mrs. Brown is the daughter of a plumber and her marriage to his son was opposed by the elder Brown. When Albert Brown died a few years ago, he left an annuity of \$100 a month to the son. Although Mrs. Brown met several friends during the day yesterday, she kept her secret well and when she first confided to Mrs. Gray, it was merely to say that her husband was dead. She had her breakfast in the house where her husband, shot down two hours before, lay a corpse, and she took lunch at J. P. at the hotel where Mrs. Marie Miller lived while waiting for her second intended victim.

Mrs. Brown said she fired two shots at her husband, before shooting her husband. The explosion woke him and they quarreled. Then, she says, she turned the revolver against him. The police doubt it. The position of his body indicated that the man had been shot while asleep.

SHIRINERS CAPTURE OAKLAND.
Several Hundred Are Turned Away at the Concert Given in Idors Park.

IST A. P. NIGHT WIRE TO THE TIMES.
OAKLAND, Oct. 25.—[Exclusive Dispatch.] The California touring shiriners this afternoon turned away several hundred at the concert given in Idors Park. Both the matinee and night houses sold out several days ago.

The troupe traveling under the slogan "Hands Around the State" have received great support in every city. Mayor Mott of Oakland today issued a proclamation commending the work that is being done and that will be launched next spring when the Shiriners tour the nation across the Rockies.

There is no greater one thing the citizens of Oakland can do right now than help these men who are giving up time, money, energy and enduring the rough and unpleasant monotony of barn-storming to raise money to defeat all of California for all Californians next spring.

Yesterday during the parade of the Portola Motor Regatta of San Francisco in the reviewing stand made the following remark: "Every Californian cannot help but feel a greater love of patriotism, cannot help but think more of the state now and in the future, cannot help but want to do more for the state as a whole as well as for his community when he sees the unselfish work of these men."

There is a rumor that the Mayors of Oakland, San Francisco, San Diego and Los Angeles will greet each other during the concert dates at Los Angeles and complete the slogan "Hands Around the State."

A sacred concert will be held in Oakland tomorrow and then the special train will steam to Sacramento.

CONVICTS BOB MINER.
Two Who Escaped from Folsom Believed to Be Hiding in Cooper Canyon.

IST A. P. NIGHT WIRE TO THE TIMES.
AUBURN (Cal.) Oct. 25.—Sheriff's posse of three counties and several squads of guards from Folsom Prison yesterday afternoon, it was thought, they were hiding in Rattlesnake Canyon, El Dorado county, but they slipped through the cordon of officers thrown around that place and are now believed to be in Cooper Canyon, two miles away from Rattlesnake.

The fugitives stopped at the cabin occupied by J. J. Closs, a miner, 79 years old, living at the south approach of Rattlesnake bridge at the point of the superior court in compliance with a rifle hair, the youngest of the three convicts, forced Closs to give him a pair of overalls. The overalls, however, Closs told them that he had only a few crusts of bread.

DODGES SHERIFFS ON HONEYMOON.

ALLEGED "THREE WEEKS" HERO WANTED IN NEW YORK.

ST. Petersburg, Prince Charged With Breach of Promise in the East on His Way to Pacific Coast. With Divorced Wife He Has Since Remarried.

IST A. P. NIGHT WIRE TO THE TIMES.
CHICAGO, Oct. 25.—[Exclusive Dispatch.] While Sheriff's hunt for him in New York with a summons in a \$25,000 breach of promise suit by a New York girl, Prince Paul de Clairmont of St. Petersburg is stopping here on his honeymoon to North Pacific Coast.

The Prince is said to be the hero of Elmer Glyn's "Three Weeks," and Miss Elizabeth Golden, a Boston heiress, is denying rumors of his engagement to her. The Prince arrived here after a hurried exit from New York with Countess Marietta of Madrid, from whom he was divorced in Paris five years ago. They intended to come to Chicago to be remarried, but stopped off at Pittsburgh when the banks grew warm and were wedded there.

Their 5-year-old daughter, Tolbette, who played a star part in their reconciliation, is with them. After the divorce, Prince Paul is said to have run through several fortunes in Paris and London in a way to attract the attention of Elmer Glyn. "We decided to be remarried a few days ago," said Prince Paul. "My wife built a great fortune in Chicago and the State of Washington. It is true that I am the hero of 'Three Weeks.'"

A BULL DOG AND A GIRL.
He is Homely and She is Pretty, and the Two of Them Caught a Bold Burglar.

IST A. P. NIGHT WIRE TO THE TIMES.
SAN FRANCISCO, Oct. 25.—A bull dog and a pretty girl captured a prize burglar here late last night. He is William Baslain, who for five years has been a "convicted" man. He is a phine, in a richly furnished house on the proceeds, the police say, of robberies that have netted him \$200,000. A complete set of burglar tools, great quantities of loot and bank books showing balances at various banks of more than \$10,000 were found at his residence, where his sister was taken in custody.

Baslain was crawling the backyard of Ulrich Debrunner after having robbed it, it is said, a nearby house. Prince, a pet bull dog, nabbed him and held on until his mistress, Miss Jennie Debrunner, arrived on the scene and summoned the police.

BUYERS DENVER REPUBLICAN.
Latest Purchase of John C. Shaffer of Chicago Leaves But One Morning Daily.

IST A. P. DAY WIRE TO THE TIMES.
DENVER (Col.) Oct. 25.—Announcement was made today by John C. Shaffer of Chicago and Denver that he has purchased the Denver Republican from the heirs of the late Senator N. P. Hill. No consideration was made known. After tomorrow's issue of the Republican it will be published from the plant of the Rocky Mountain News. On Thursday Mr. Shaffer concluded negotiations for the purchase of the Rocky Mountain News. This change will leave one morning daily in Denver.

LAY CITY HALL CORNERSTONE.
San Francisco as Part of the Portola Festival, Builders Commencing Unit of Civic Center.

IST A. P. DAY WIRE TO THE TIMES.
SAN FRANCISCO, Oct. 25.—The cornerstone of the new \$1,500,000 City Hall, which will be commanded by the unit of the civic center, was laid today as a part of the Portola festival. Specimens of the last silver dollar minted on the Pacific Coast in 1879 and of the latest \$20 gold piece minted here, together with various historical documents and photographs were enclosed in a copper box and buried under the stone.

EXONERATES FUNK.
Mrs. John C. Henning Tells the Court in Chicago that She Doesn't Know Her Husband's Whereabouts.

IST A. P. NIGHT WIRE TO THE TIMES.
CHICAGO, Oct. 25.—On the witness stand today in a courtroom packed to the doors, Mrs. John C. Henning completely exonerated Clarence S. Funk, who, two years ago was charged by the woman's husband with alienating her affections. "Are you acquainted with Clarence S. Funk," asked Attorney Barnhart for the state.

"The witness shook her head and answered 'No.'"
Funk, former general manager of the International Harvester Company and present head of the M. Rumley Company of Fort, Ind., was asked to stand up.

"Did you ever see this gentleman?" the lawyer pursued.
"I never did," came the faint reply.

Will Voice Protest.

(Continued from First Page.)

Katherine Felton, Mrs. James Tucker and Mrs. Anita C. Whitney. Not in years has an affair of this kind aroused so much protest among denominations of all kinds. The "ritual murder" case at Kiev is so apparently an attempt to place a stigma on the Jewish rites that fair-minded people in all quarters of the globe are today showing their disapproval of the methods employed by the czar's officials.

There will be many meetings held tomorrow in all parts of the country and an enormous joint resolution will be forwarded to the Russian officials. At the close of the meeting tomorrow Rabbi Nieto will present a resolution condemning the "ritual murder" theories advanced by the Russian government prosecutors in general and the case of Mendel Beilis in particular.

ROCKEFELLER DONATIONS.
Nearly Two Million Dollars Parceled Among Schools and Colleges by Education Board.

NEW YORK, Oct. 25.—One million, five hundred thousand dollars to Johns Hopkins Medical School, Baltimore; \$200,000 to Barnard College, New York City; \$200,000 to Wellesley College, Wellesley, Mass.; \$150,000 to Ripon College, Ripon, Wis.; a total of \$1,950,000—these are donations announced yesterday by the General Education Board, which was formed by John D. Rockefeller, nine years ago.

GRAPE JUICE IN CHURCH.
World's W.C.T.U. Suggests that the Unfermented Kind Be Used by the Episcopopians.

IST A. P. NIGHT WIRE TO THE TIMES.
NEW YORK, Oct. 25.—The convention of the World's Women's Christian Temperance Union adopted a resolution today requesting the house of bishops of the Protestant Episcopal Church to "consider the propriety of using unfermented wine at the communion in place of fermented wine, which contains the narcotic poison alcohol."

The resolution was a "substitute for one originally offered, setting forth that fermented wine 'could not truly represent the blood of Christ.'"

The resolution came too late to receive attention by the house of bishops before adjournment.

Talk on Teeth Good Teeth and Digestion.
Keep your digestive apparatus in good working order and you can defy old age.

What causes indigestion? Poor teeth or no teeth. In nearly every case "stomach trouble" is generally caused by "tooth trouble."

What's the remedy? OUR REX METHOD OF ALVOCAL TEETH, AS PERFECTED BY DR. RANKINE.

When these teeth are in place it is a difficult matter for anyone, even the one who is wearing them, to tell which are nature's teeth and which are artificial.

In shape, size, color, looks and action they are a perfect substitute for teeth which grew in the mouth and as firm as a rock.

Dr. C. M. Rankine, 222 Central Bldg., Los Angeles, Cal. Dear Sir:—I give you much pleasure in writing you that the work you did for me over five years ago is perfectly satisfactory, and is all that you claimed for my Alveolar process. I consider it the best thing possible next to the original teeth. I shall take pleasure in so stating to any one you may refer to me. Yours truly, A. J. MITCHELL.

Kranich & Bach Pianos.

ARTISTIC CREATIONS OF THE HIGHEST CLASS

Nearly fifty years of intense application for the purpose of securing the most refined and sympathetic tone-quality, together with the most rigorous attention to the question of construction in its relation to durability, substantiate the claim that the Kranich and Bach Piano is one of the world's best musical instruments.

THE BABY GRAND PIANO
You will find your ideal of a piano in one of these Baby Grand models—just the right size to fit your music room and harmonize beautifully with the other furnishings. The Baby Grand is the most beautiful and practical of all pianos. It is a Back a favorite among critical musicians everywhere. Made in Germany, the English oak, mahogany and other woods, offers a wide selection of exquisite designs to choose from.

The Business Man's Piano
That's what has been said of the Kranich & Bach Piano for years. It is the one piano that you, Mr. Business Man, can afford to own. It is the one piano that will give you the most of the great artists. Without the knowledge of music, and with the thorough practice you will find that the Kranich & Bach Piano is the one piano that you always get the right expression and the right time. You need the Player-Piano for your own and your family's enjoyment. It is a piano that is always to get it NOW.

SUFFERED TWELVE YEARS CATARRH OF STOMACH
RELIEVED BY PERUNA

Most of our testimonials are old acquaintances. That is to say, we have been in correspondence with them ten or fifteen years.

Mr. Shanks, however, is a new comer. He is an old friend of Peruna, but he never called our attention to the fact until very lately. We welcome him to the host of users and believers in Peruna. His appearance speaks for itself, and it is to be hoped that he will be able to tell us of the relief he has obtained from the use of Peruna.

"I feel very grateful to Peruna, and I have recommended it to a number of my friends. I still take a bottle every spring. My wife has used it with good results. You can use it or any part of it if you see fit."

Dr. C. M. Rankine, 222 Central Bldg., Los Angeles, Cal. ARE IN ACCORD WITH VANDERLIP

Local Bankers Indorse East
Banker's Stand.

Favor One Huge Govern-
ment-Controlled Bank.

Views on New Phase in Cur-
rency Bill Fight.

A number of prominent local bankers yesterday expressed themselves as greatly in accord with the suggestion of Frank A. Vanderlip, president of the National City Bank of New York, that there be established a government controlled and operated central bank, to dominate the financial system of the country, instead of the proposed regional reserve banks, of which there will be twelve if the currency bill is passed in its present form.

Vanderlip presented his plan before the Senate Banking and Currency Committee last Thursday.

Under Vanderlip's proposal, the government, through a board of seven members, appointed for terms of seven years and receiving salaries of \$15,000 or \$17,500 a year, would establish a huge bank with \$100,000,000 capital, which would issue currency, make rediscounts and hold bank reserves under the control of the Federal Reserve Board.

Vanderlip suggested that it possible the stock of this institution be held by the public as an investment security. The stock would have no vote or vote in the control of the bank, which would under all circumstances rest entirely with the government.

He pointed out that his bill differed from the administration plan in that it eliminated the banks from participation in the administration of the system, which would control the issue of currency. In the pending bill, the banks would own the stock and elect six of the nine directors of each of the regional reserve banks, which would issue currency, make rediscounts and hold bank reserves under the control of the Federal Reserve Board.

"I believe that Mr. Vanderlip's suggestion is to be regarded as a compromise between the legislators and the bankers, and I believe that the majority of the bankers will approve of it," said J. C. Drake, president of the Los Angeles Trust and Savings Bank. "Bankers generally recognize that it would be far better to have one reserve bank than twelve. Not only would the expense be lessened, but the efficiency of the system would be increased."

"Banks in all sections of the country could be given better support by such a central financial institution than by a number of local financial institutions. The most important feature of the bill, in my estimation, is, however, that it would enable banks to rediscount commercial paper, which would prove a very beneficial provision in times of financial stress."

"I think that Mr. Vanderlip's suggestion has a great deal of merit," said Boardman, vice-president of the First National Bank, who has just returned from the East, where he attended the annual convention of the American Bankers Association.

"The one main thing that should be accomplished by the present currency bill is the elimination of banks to rediscount commercial paper—to transform one kind of credit into another. This would be the effect if Mr. Vanderlip's suggestion be followed."

"His suggestion would provide for a central reservoir for the funds of the country, from which they might be easily diverted to those sections where required. Banks generally would be in favor of the idea of such a central institution as that proposed by Mr. Vanderlip—one owned and controlled by the government or the people, for one of their chief objections to the present currency bill is that they will have to supply the capital for the reserve institutions and will then have practically no voice in the control of these institutions."

"The proposal of Mr. Vanderlip follows along the general lines of the systems in vogue in England and Germany, which have proved remarkably effective," said J. F. Sartori, president of the Security Trust and Savings Bank. "As Mr. Vanderlip has suggested, we should have a central institution—not a money-making bank, but one which, during normal times, would accumulate a strong reserve, and that in periods of stress it would be ready to furnish aid to the sections which need that aid."

"In Los Angeles, for instance, during the summer we have been suffering from a stringency—not a currency stringency, but a credit stringency. The quantity of money has not decreased, but the banks have been unable to expand their credit, because they have had to strengthen their reserves for any adverse conditions which might arise."

"Such a situation could be pre-

pared for by a central reserve bank, like that suggested. It would be in a position to rediscount commercial paper, and when a time of stress was at hand could enable banks to supply funds for all demands for commercial purposes and for industrial improvements."

QUESTION OF ANNEXATION.

Santa Monica Contemplates a Dis-

cussion Which May Affect the City's

Future—Short News Stories.

SANTA MONICA, Oct. 25.—Participation by this city in Owens River water, and the accompanying question of annexation to Los Angeles will be discussed at a meeting of the Chamber of Commerce and friends of the Chamber Tuesday night, November 7. This affair will be a "get-together" banquet. R. W. Armstrong is chairman of the Committee on Arrangements for the event.

There is a strong feeling that these cities should unite with Los Angeles to secure part of the now of the aqueduct, and to acquire the distributing systems of the local water companies by a bond issue. There are many opponents to this plan, and the proposition will be aired extensively at the meeting.

NEWS BRIEFS.

Mayor Dow will, Monday, appoint a number of citizens to represent the city at the big meeting of the Pico-to-the-Sea Highway Association, in Odd Fellows Hall, Pico street, Los Angeles, Tuesday evening, John D. Reavis, president of the association, was here today interesting Fremont avenue boulevard boosters in the gathering. The work of the boulevard boosters is being systematized, and the action of the local Council in again passing an ordinance of the same kind to pave this end of the road is being commended highly.

Mrs. Sarah M. Potter, an artist who attained distinction by modeling in wax, died this morning at her home, No. 1622 Eighth street. She was 71 years of age, but kept up her work until the last month of her life. Most of the wax fruits now on exhibition in the Los Angeles Chamber of Commerce are the work of her hands. The funeral will be held Monday afternoon.

POMONA BRIEFS.

POMONA, Oct. 25.—Beginning tomorrow afternoon at Pilgrim Congregational Church, Pomona, will be the Ministerial Union and the local Sunday-schools, a Union Bible Institute will be held. The sessions will commence with a big Sunday-school rally. Among the principal speakers during the institute will be Rev. Dr. R. P. Shepherd, formerly of this city, now with the International Sunday-school Association of America, Dr. H. A. Dowling, secretary of the Southern California Sunday-school Association; J. H. Montgomery, Dr. Hugh Gibson, Miss Blanche E. Wachob, Miss Meme Brockway and Mrs. H. A. Dowling will also be present to participate in the program of the institute sessions Monday and Tuesday afternoons and evenings.

The funeral of the late Prof. Christian Gottlieb Jenter, formerly of the department of chemistry of Pomona College, who has been in ill health for some time, was held at W. S. Todd's chapel on North Garey avenue this forenoon, and the remains were taken to Los Angeles this afternoon. The deceased is survived by a widow and son.

Miss J. Yorba and daughters, the Misses Yorba, of the Lordsburg road, are in San Francisco attending the Portola festivities, over which their cousin, Miss Conchita Sepulveda, has been presiding as queen. They were accompanied by Mrs. Frank Vejar and the Misses Grace Vejar, the latter being a descendant of the first Spanish settlers in this locality.

Point Loma.

SOLDIERS IN DETENTION

CANNOT VOTE TODAY.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

SAN DIEGO, Oct. 25.—Over on Point Loma on the government reservation, just below the quarantine station, is situated the only camp of prisoners of war in the United States, where some 600 Mexican Federal soldiers are held in the detention camp. This is the command of Col. Emilio Kosterlitzky, Austrian-Polish soldier of fortune, who was forced last spring to surrender to the American troops across the border.

With the prisoners are their wives and families, in the camp, giving it quite a domestic air. Approximately one-half the camp is comprised of Yaqui Indians, and their ingenuity in contriving comforts from primitive materials is one of the features of the camp.

October 3 the stock visited the tent of Sgt. and Senora Candelito Vito, leaving a number of sacks weighing just three pounds and a half. By careful tending the youngster thrived.

Deadlock on Currency.

(Continued from First Page.)

have the support of a majority of the committee. The other will be the President's bill, which will be considerably modified so as to make it more palatable to the committee. The President would prefer that the committee report a single bill embodying some concessions in order to bring this result about.

In any event the President will be glad to have the committee report so that the measure can be considered in the open Senate. It is likely he will advocate the holding of a Democratic caucus and seek to induce the majority of that body to vote in favor of his bill.

TAKES DECIDED STAND.

Ventura County Supervisors Declare by Vote Where They Stand on Matter of State Highway.

VENTURA, Oct. 25.—The Board of Supervisors yesterday indorsed in a set of strong resolutions the Council road through the county originally planned by the State Highway Commission. This road was projected straight through the county, going by way of El Rio and Springville and Camarillo. At the time it was adopted some money was raised to build the road, but it has since been abandoned.

Mayor Dow will, Monday, appoint a number of citizens to represent the city at the big meeting of the Pico-to-the-Sea Highway Association, in Odd Fellows Hall, Pico street, Los Angeles, Tuesday evening, John D. Reavis, president of the association, was here today interesting Fremont avenue boulevard boosters in the gathering. The work of the boulevard boosters is being systematized, and the action of the local Council in again passing an ordinance of the same kind to pave this end of the road is being commended highly.

Mrs. Sarah M. Potter, an artist who attained distinction by modeling in wax, died this morning at her home, No. 1622 Eighth street. She was 71 years of age, but kept up her work until the last month of her life. Most of the wax fruits now on exhibition in the Los Angeles Chamber of Commerce are the work of her hands. The funeral will be held Monday afternoon.

CHURCH TAKES ADVANCED STEP.

Congregationalists Adopt a
New Constitution.

Discard Ancient Document of
Fifty Years Ago.

Only One Vote Is Cast in
Opposition to Change.

(BY A. P. NIGHT WIRE TO THE TIMES.)

KANSAS CITY (Mo.) Oct. 25.—Congregationalists united and aggressive—reprinted in its national council, reported on its difficulties today, burned its instruments for extending its domain in the religious field, and struck off the shackles that had bound it to an antiquated constitution, adopted almost a half-century ago, when the council assembled, practically unanimously, a constitution framed by a commission of nineteen. The final vote was 42 to 1.

The document contains a new statement of doctrine, providing for the election of a general secretary with advisory power towards the Congregational churches of the country, brings the church societies, eight in number, under the control of the national council and changes the time of holding council meetings from every three years to every two years.

Only one vote was cast against the adoption of the constitution. All who had opposed the constitution, including Gov. Baldwin, voted in favor of it. The principal opposition came from the member of the missionary societies who are affected by a change in the constitution.

Be a Real Beauty

By Clearing Your Complexion and

Restoring Youthful Color With

Stuart's Calcium Wafers, the

New Skin Eruption Remedy

You can use all the lotions and creams in the world, but you won't have a good complexion unless your blood is free from the impurities which cause pimples, blotches, liver spots, blackheads and boils.

"I Am Free From All Ugly Face Color and Skin Eruptions—Used Stuart's Calcium Wafers."

No matter how splotchy or pimply your face is now you can clear it quickly by taking Stuart's Calcium Wafers. This isn't guesswork, it is a fact. These little wonder-workers reduce the impurities in your blood, the greatest blood purifier known to science. Stuart's Calcium Wafers are not a particle of food, harmful drugs or opiates in them. They may be taken with perfect freedom by any one.

They contain as their main ingredient the most thorough, quick and effective blood cleanser known—calcium sulphide.

Stuart's Calcium Wafers will make you happy because your face will be a welcome sight not only to yourself when you look into the glass, but to everybody else who knows you and talks with you.

Prove to yourself that Stuart's Calcium Wafers are beyond doubt the best and quickest blood and skin purifier in the world, and don't rest contented until you have bought a 50c box at your druggist's. Do this at once and in a few days the transformation will be a delightful surprise to you.

FIGHTS THE OFFICERS.

Wife Fears Husband and Calls Off-

icers to Aid Her when She Meets

Him.

L. A. Houseman, on parole from

Patton, was arrested by Deputy

Sheriffs Sweeney and Bell last night

at Twelfth and Main streets on a

complaint charging failure to sup-

port. Mrs. Houseman, who, with her

4-year-old daughter, lives at No. 1454

East Forty-second drive, caused the

complaint to be issued when she

learned of her husband's return from

Chicago where he had fled when the

police were searching for him with a

warrant charging battery.

Houseman is a painter. According

to his wife as well as the police he

is a dangerous man. Friday of this

week, according to the story told by

the wife, he went to a small boy in

the neighborhood of the wife's re-

sidence and gave him a quarter to

coax Baby Houseman away from home

so that he could get possession of the

child. Falling in this he called his

wife on a telephone and made an ap-

pointment for yesterday evening.

Fearing personal violence, so Mrs.

Houseman says, she told her trouble

to the District Attorney. When the

appointment was kept last night

Sweeney and Bell were on hand and

arrested Houseman. On the way to

the County Jail, the prisoner raised

his manacles and endeavored to strike

Sweeney. He fought viciously for a

few minutes, but was subdued and

taken to jail.

AN AUTUMN BRIDE.

In the presence of a few intimate

friends last evening Mrs. Margaret S.

Pierce of No. 107 North Fremont

street became the bride of Harry

Drewman, a member of the Reliable

Carpenter Company. Attired in a charming

gown of lavender silk, Mrs. Pierce

was given away by her oldest son,

Harry Baird, and she was an attractive

bride in the eyes of all. After two

months spent in Salt Lake City and

Denver on a honeymoon trip, Mr.

and Mrs. Drewman will reside at

No. 107 Fremont street.

The image is a vertical, high-contrast scan of a document page. It is characterized by extreme noise and artifacts, including prominent vertical banding and horizontal streaks. The overall appearance is dark and grainy, with a mottled texture that obscures any original content. The left edge shows a slight vertical line, possibly indicating the binding or a page fold. The right edge is irregular and jagged. The central area is dominated by a dense pattern of vertical lines and horizontal noise, suggesting a severely degraded or damaged scan of a physical document.

Matheson

Now at 737-741 South Broadway

Visit one of the best appointed stores in the country for women's wear. Everything crisp and new. Matheson fashions appeal to the taste of careful dressers—women who appreciate fine merchandise, and delight in shopping where every convenience is offered for their comfort, and amid attractive surroundings.

"Forsythe" Waists

None genuine without stamped with the reproduced signature. Matheson is sole Los Angeles distributor. The materials are linen, madras, tub silks, crepe de chine and soft flannels. Styles range from the severely plain up to the ornate effects. Plain colorings and fancy patterns in all wanted shades. Unexcelled in fit and finish.

Tailored Suits and Street Dresses

Replicas of the world's fashions in street gowns and tailored dresses. Every fashionable weave and coloring to select from. The charm of style will please the most critical, and above all, quality is pre-eminent. Good suits as low as \$25, and ranging up to \$225.00. Our assortment of boudoir garments will harmonize with your artistic home surroundings. In out-door wearables we offer the long, loose imported Raglans and the separate short coats, as well as the novelty outing coat sets for the athletic and motoring enthusiasts.

Two New Departments

Tailored Hats

There is an excellence to the "Henry Heath" English hats that makes them favorites not only with royalty but all women who keep in touch with the fashionable world. Why not a "Heath"?

"Mayfair" Corsets

We control the selling in Southern California of this famous corset, and have every fashionable model which ensures faultless fit, without which no suit can be satisfactory.

FRUIT LAXATIVE FOR MAMMA, DAD, BABY, "CALIFORNIA SYRUP OF FIGS"

Better Than Calomel, Oil or Salts for Liver, Bowels and Stomach.

Mother, daddy and the children can always keep feeling fine by taking this delicious fruit laxative as occasion demands. Nothing else cleanses the stomach, liver and bowels so thoroughly without griping.

You take a little at night and in the morning all the foul, constipated waste, sour bile and fermenting food is cleared out of the system. When you awaken all headache, indigestion, sourness, foul taste, bad breath, fever and distention is gone; your stomach is sweet, liver and bowels clean and you feel grand.

"California Syrup of Figs" is a family laxative. Everyone from grandpa to baby can safely take it and no one is ever disappointed in its pleasant action. Millions of mothers know that it is the ideal laxative to give croup, sick, feverish children. But get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups in each bottle. Refuse with contempt the cheaper Fig Syrup and counterfeit. See that it bears the name—"California Fig Syrup Company." [Advertisement]

WILL STAY IN CONTEST.

Women Voters of Riverside Complicate Situation by Their Fidelity to One Man's Candidacy.

RIVERSIDE, Oct. 25.—With the announcement tonight of Councilman Broadford Morse of his intention to stay in the contest for the office of Mayor, the circulation of petitions for the nomination of Mayor Peters to succeed him, and the circulation of a petition of former Councilman Oscar Ford already filed, interest in the November election largely centers in the campaign for the highest office in the city.

While there are some who have decided opinions as to the result of the interesting three-cornered contest, there are more who think that at the present time it is "anybody's race." All three candidates are prominent in the community and have had extensive experience in the administration of municipal affairs.

The women voters are taking an active part in the campaign, petitions signed by more than 200 being turned in today, appealing to the electors for the re-election of the Mayor, on the ground of his efforts in the matter of the enforcement of the liquor ordinance.

More or less involved with the Mayor's fight is the movement recently launched for the amendment of the freholder charter adopted in 1907. A special election will be held approximately thirty days following the general election to submit to the voters amendments presented through an initiative petition. The amendments are concerned for the most part with curtailing the powers of the Mayor, and with restricting the amount that may be accumulated in the depreciable funds of the city's public utilities.

The Council has decided that it will submit some amendments on its own hook, as long as an election is to be called for the purpose, and wrestled with some of the changes proposed last night. With two candidates for Mayor, and with the freholder amendment quorum present, it was found impracticable to harmonize matters to a point where a vote could be taken on any of the propositions.

Ends Backache and Kidney Disorders

Croxone Helps Lifeless Organs Regain Health, Strength and Activity.

It is useless, dangerous and unnecessary to be tortured with the digging, twisting pains of backache or suffer disagreeable kidney or bladder disorders when Croxone is guaranteed to promptly and surely relieve all such misery.

Croxone masters these troubles because it quickly reaches the cause of the disease. It soaks right into the stopped up, inactive kidneys, through the membranes and linings; cleans out the little filtering glands; neutralizes and dissolves the poisonous uric acid and makes the kidney's filter and sifter from the blood the waste and poisonous matter that clog the system and cause such troubles.

It does not matter whether you have but slight symptoms or a chronic, aggravated case, it is practically impossible to take Croxone without results.

An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if you are not entirely satisfied the very first time you use it.—[Advertisement]

ELSONORE, Oct. 25.—L. H. Mitchell, plumber and electric light installer, appointed by the Board of Trustees, resigned his office and his resignation was accepted by the board Thursday night. The septic tank, which is not a complete success and supposedly automatic arrangements, just now requires a man to spend considerable time looking after them.

This caused the Elsonore hotel, which is a 35-room establishment, to warrant the time which the board seemed to expect him to give to the septic tank matters. City Marshal Townsend has temporary charge of the office until the next meeting of the board.

The ladies of the Presbyterian Church are planning their annual bazaar, committee hall, the middle of December. They will also serve a supper.

Mr. and Mrs. A. R. Moore have sold their home in the city and are moving to M. H. Wilson of Pomona, who recently bought what is known as the "Dickinson" house, 1000 North Main street. Mr. and Mrs. Moore will soon go to Pomona to reside.

TWO BIG LAND DEALS.

Covina Ranches Are Wanted and Owners Sell When They Get the Fancy Price Demanded.

COVINA, Oct. 25.—Twenty acres of land planted to English walnuts were sold this week through the agency of D. W. MacDonald of the Edwards & Wilder Company, to A. F. Bonnell of Orange, consideration, \$14,000 cash. The owner was W. L. Griffiths, and the sale was half of a forty-acre tract. MacDonald has also sold twenty acres of vacant land fronting on Lark street to C. H. Beatty of Elmhurst, Cal., for \$9,000 cash. This land was owned by W. D. Melick. Another sale by the same agent is valued at \$12,500, the Covina ranch being valued at \$12,500. Bonnell plans to move here with his wife and children.

The Covina Realty Company has sold a five-acre navel grove belonging to Hardin Smelter, situated on Workman street, to Charles O. Burnison of Ohio. The five acres were exchanged for an Ohio tract of walnut land valued at \$12,500. The Covina ranch being valued at \$12,500. Burnison plans to move here with his wife and children.

PAPER PUBLICATION.

The "Covina Citrus News," a newspaper which has been in circulation here for the past eight weeks, suspended publication this week. The proprietors were Merriam and Day, two gentlemen who made a favorable personal impression on the business here, but in a statement which they printed in the last issue, they said that they were unable to carry out alleged contracts that were support promised it by the citizens who were responsible for bringing the new firm to Covina. The editors were brought into the city by the support promised it by the citizens who were responsible for bringing the new firm to Covina. The editors were brought into the city by the support promised it by the citizens who were responsible for bringing the new firm to Covina.

WOMEN'S PICNIC.

The Monday Afternoon Club of Ladies spent a pleasant day Saturday, picnicking in Ganesha Park, Pomona. Over 100 ladies were present. The annual recreation of the sophomore to the freshmen was held Friday evening in the School auditorium, with a Halloween programme.

ELSONORE.

ELSONORE, Oct. 25.—L. H. Mitchell, plumber and electric light installer, appointed by the Board of Trustees, resigned his office and his resignation was accepted by the board Thursday night. The septic tank, which is not a complete success and supposedly automatic arrangements, just now requires a man to spend considerable time looking after them.

This caused the Elsonore hotel, which is a 35-room establishment, to warrant the time which the board seemed to expect him to give to the septic tank matters. City Marshal Townsend has temporary charge of the office until the next meeting of the board.

WEEK'S CAMPAIGN.

On Monday, Tuesday and Wednesday next, the Henderson, Krohn and Harty committees, respectively, will be busy on lines of their individual choice.

Thursday, Friday and Saturday next will be the day for the voters to cast their ballots. The Mayors of the four cities represented in the combined hands and patrol—San Francisco, Oakland, San Diego and Los Angeles.

TICKET SELLERS SETTING PACE.

Interest in Coming Concert Growing Keener.

Four Teams in Race for the Silver Loving Cup.

Shriners Will Wear Fezzes Three Days in Week.

Fast and furious tempo is slow compared with the pace set by the local Shriners for the final week of ticket-selling for their four great concerts at the Shrine Auditorium next Friday and Saturday afternoons and evenings.

Yesterday was a strenuous day for some of the ticket sellers, who, in a rapid-fire attack on downtown business men, reaped a golden harvest for the "Hands Around the State" cause, the result of the first systematic effort to sell tickets netting over \$600 in two hours.

The success of the tour so far has been remarkable, houses crowded to the limit of seating capacity being the rule and the prospects for a reputation of the success in this city are bright. All the "boost" organizations in the city have given their approval and support to the movement, and the Rotary Club, under the leadership of J. J. Jenkins, will rally in force, 400 strong, Saturday night. The Rev. Baker P. Lee and the Rev. J. Whitcomb Brounger this morning will preach on the "Hands Around the State" topic.

For the greater convenience of the public, tickets have been placed on sale at the Auditorium Theater and they may also be obtained at the Southern California Music Company, Bartlett Music Company, Bannister Music Company, J. H. Brown Music Company, Holmes Music Company, Birken Music Company and the Dyacine Music Company.

SHRINERS WILL WEAR FEZZES.

Three Days in Week.

Fast and furious tempo is slow compared with the pace set by the local Shriners for the final week of ticket-selling for their four great concerts at the Shrine Auditorium next Friday and Saturday afternoons and evenings.

Yesterday was a strenuous day for some of the ticket sellers, who, in a rapid-fire attack on downtown business men, reaped a golden harvest for the "Hands Around the State" cause, the result of the first systematic effort to sell tickets netting over \$600 in two hours.

SHRINERS WILL WEAR FEZZES.

Yesterday was a strenuous day for some of the ticket sellers, who, in a rapid-fire attack on downtown business men, reaped a golden harvest for the "Hands Around the State" cause, the result of the first systematic effort to sell tickets netting over \$600 in two hours.

The success of the tour so far has been remarkable, houses crowded to the limit of seating capacity being the rule and the prospects for a reputation of the success in this city are bright. All the "boost" organizations in the city have given their approval and support to the movement, and the Rotary Club, under the leadership of J. J. Jenkins, will rally in force, 400 strong, Saturday night. The Rev. Baker P. Lee and the Rev. J. Whitcomb Brounger this morning will preach on the "Hands Around the State" topic.

For the greater convenience of the public, tickets have been placed on sale at the Auditorium Theater and they may also be obtained at the Southern California Music Company, Bartlett Music Company, Bannister Music Company, J. H. Brown Music Company, Holmes Music Company, Birken Music Company and the Dyacine Music Company.

moth Flower Show.
(Issued from First Page.)

It will somewhat upon a character. Great landowners of a high order, as a necessary setting exhibition and this could be prominent the the exhibition to revert to Los Angeles at the close of the season.

One way would it be possible upon a fundamental exhibition and standard for proper setting for the products of the blossoms, fruits and flowers of the state, an exhibition to the value of \$100,000, for the horticultural interests of the country is so far beyond the scope of any exhibition as well as the lesser annual holdings of the state, and could these all be in one great enterprise and the flower show the like of the world has never seen. The exhibition of this character will become famous and the exhibition will be found Sierra Nevada, Santa Monica, Hollywood and other places. It will give an exhibit that has never been given credit.

of the question it will be necessary to establish a guarantee fund sufficient to insure the exhibition. It is believed, however, that no difficulty will be experienced in obtaining a guarantee fund sufficient to meet every need, and present indications point strongly to a sufficient guarantee fund. The exhibition is continued, for such encouragement has been given to the committee which has felt the pulse of the commercial bodies and leading business men.

There is no doubt but that in the near future ground will actually be secured for the exhibition, and in which to provide a proper fundamental setting for an exhibition on the scale of such an exhibition. It is in order to hold up the fair fame of Los Angeles and vicinity as the "Land of Sunshine and Flowers."

PROSPECT NOT BRIGHT.

The prospects for the release of Mrs. Thelma G. Roberts from the County Jail appear slim. Yesterday another of her bondsmen, George W. Williams, was ordered to pay the balance of the first bonds given for the woman.

In order to gain her freedom the accused woman must now pay \$4800. Her preliminary examination was held in charge of passing a fictitious check for \$1000. The woman was released for Justice Revere, November 4.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

A tabulation just made by Purchasing Agent Baker shows that the city now has invested nearly \$100,000 in motor-driven apparatus and vehicles, and is now advertising for bids for fifteen more pieces.

The State Railroad Commission yesterday publicly scored the Express for an alleged interview with Commissioner Thelen and declared the board's intention to keep free from local "morays."

The City Council was unable yesterday to take any action on the power bond resolution, as President Whitford was acting as Mayor and the necessary six votes could not be marshaled for the resolution. It will be before the Council tomorrow.

The Mayor has issued a proclamation declaring the importance of the aqueduct celebration and urging that business be suspended and all employees be given a holiday to participate in this event.

A conference was held informally in chambers of the new judge trying the irrigation suit of the California Development Company in an endeavor to reach some agreement with the Mexican authorities over the use of the canal system across the border.

GREAT OUTLAY FOR CITY AUTOS.

FAR SURPASSES SAN FRANCISCO IN THIS LINE.

Almost Three Hundred Thousand Dollars of Municipal Funds Now Invested in Motor-Driven Vehicles, and Bids Are Asked for Furnishing Fifteen More.

For the benefit of the Supply Committee of the City Council, Purchasing Agent Arthur Baker has just completed a tabulation of the motor-propelled vehicles and apparatus owned by the city. The interesting fact is developed by this tabulation that Los Angeles has almost \$300,000 now invested in such manner. The exact figures of the present investment are \$287,293.56.

On top of this, the City Council has just authorized the advertisement for bids for supplying fifteen pieces of motor-driven fire apparatus, the cost of which will probably exceed \$100,000. Provision for this outlay is made in this year's fiscal budget.

This new purchase will include four

tractors, six chassis, one hook and ladder truck with aerial ladder, two city service trucks and two combination hose wagons and chemical engines.

The tabulation prepared by Baker shows the make of vehicle, its character, number of cylinders and capacity, horse power, year purchased, cost and where garaged.

This shows in detail the situation for each city department in the way of auto supply, and states that the fire department leads the list with twenty-eight pieces of motor-driven vehicles. The police department is a close second, with twenty-seven pieces, and the water department has almost as many.

Los Angeles far surpasses San Francisco in the amount of its outlay in this class of municipal supplies.

NATURAL GAS HEARING. COMMISSION MAKES STATEMENT.

The State Railroad Commission, represented by Commissioners Thelen and Gordon, yesterday forenoon completed taking testimony in the hearing on the subject of fixing the rate for natural gas delivery to the boundary of Los Angeles. The case was taken under advisement.

Both commissioners have been much annoyed by the alleged interview with Commissioner Thelen, displayed in black type in the Express on Friday night—an interview that was intended to bolster up the policy of that paper, but which is discredited by the commissioner.

Before starting to take testimony,

yesterday forenoon, Commissioner Thelen made the following public statement, which was entered as a part of the official record:

"Before resuming the hearing this morning, I think it well to make a statement concerning a certain alleged interview in one of the evening papers of last night, credited to a member of this commission. Both Commissioner Gordon and I resent very much any attempt on the part of any newspaper or any person to misquote the commission or any commissioner with any local matter here, in the city of Los Angeles. The fixing of the local rate here is entirely up to the city officials, and those officials, we must assume, will act intelligently and for the public interests, both as at the time when and the manner in which, they will fix their local rate. This commission has nothing to do with that and neither the commission nor any commissioner will permit themselves to be put in a position of apparently suggesting how it shall be done.

"With reference to this case, which is now pending before this commission, that case will be decided upon the evidence produced and on nothing else. It may take some time to digest the evidence because in this case, as in all other cases, the commission will go into the evidence carefully and digest it thoroughly, and Commissioner Gordon and I both believe it may take three or four weeks at least before the decision may be rendered, but we shall try in our field to exercise the same care and judgment which we know the city officials will exercise in theirs, and nobody connected with this commission is going to suggest, either directly or indirectly, to the city officials what they shall do.

"I thought it was necessary—both Commissioner Gordon and I thought it was necessary—in justification of the constant attitude which this commission has always taken in connection with local affairs, that this statement should be made."

AQUEDUCT CELEBRATION. MAYOR ISSUES PROCLAMATION.

Mayor Rose has issued a proclamation in which he says:

"Wednesday and Thursday, November 6 and 7, 1913, in Los Angeles and vicinity will pass into history as the dates marking the completion of the largest engineering and water transmission undertakings in the world, has attracted the attention of every down-to-date municipality in both continents. Exposition Park contains what no other national, state or city park has—an aggregation of educational, athletic, military and amusement institutions assembled in one pleasure-ground area.

"The days designed in the preceding paragraphs have been dedicated by the Los Angeles Aqueduct and Exposition Park Celebration Commission to the ceremonies attendant upon the completion of these two great projects. The first day is to be given over to the ceremonial in the beautiful and fertile San Fernando Valley, destined to become a part of the great metropolitan area where the water will be turned into the San Fernando reservoir. The second day will be given over to the plan for the opening of Exposition Park.

"Believing that every resident of Los Angeles should be fully informed concerning these remarkable achievements, and that all should have an opportunity to attend one of the celebrations, I, as Mayor of the city of Los Angeles, deem it advisable to request those engaged in commercial and professional pursuits, and the heads of municipal departments, to grant employees a holiday on one of the days named, and to join with the employees in the festivities.

"I also suggest that flags be displayed both days from every municipal building, store, factory, public building and dwelling."

IN STATUS QUO.

POWER BOND RESOLUTION. Councilman Reed back in his chair in the Council chamber, Mayor Rose out of the city, President Whitford of the City Council acting as Mayor and therefore ineligible to participate in the Council session—this was the position at the City Hall yesterday.

It left the power bond resolution in statu quo. Only five votes were available for the resolution, and six are necessary for its adoption.

The subject was presented in the Council by Councilman Betkowski, who declared that it had been the intention to demand action at the session, but that "unfortunately or otherwise," the Mayor was out of the city and this would block the situation.

Councilman Reed made a statement, declaring that he would much prefer to have the power plant stand uncompleted "than to have it complete for the benefit of the power companies."

"I will stay here until the matter is decided," said Reed, "and unless Mayor Rose comes back and takes a stand either for the people or against the power companies, I will stay here."

Councilman Conwell and Langdon stand firm in their logical position that it is only fair and just to the voters of Los Angeles that the two items, \$1,250,000 for completion of the power plant and \$1,500,000 for acquisition of a distributing system be submitted as separate propositions.

Committee of the Whole.

The Council met as a committee of the whole immediately after the regular session yesterday, and City Attorney Stephens asked for information as to what was desired from him in reference to the referral to his department of the communication from the People's Welfare Commission demanding the removal of O. O. McReynolds, president of the Board of Public Utilities. He stated that if the Council desired to act on removal, the procedure was plainly marked out, but that aside from this he was at a loss wherein he should advise the Council.

Upon suggestion of Councilman Snowd further consideration will be given the communication of the People's Welfare Commission tomorrow.

Would Regulate Quality.

Much complaint has been made lately by automobile owners of the variable quality of gasoline sold by various dealers. Oil Inspector Blackmar and Councilman Conwell have given this subject considerable discussion, and as a result have called a public hearing to take place in room No. 14, City Hall, at 8 o'clock Thursday night, at which time the subject of drafting an ordinance to regulate the quality of gasoline will be discussed.

Want New Name and Railway.

The Glen Alta Improvement Association at its meeting on Friday night received encouraging reports on the prospect of securing a branch of the street railway in that district. The association is determined to secure the change of names of Prichard street, Haase street and Flora street to cover one boulevard, to Huntington drive, and they desire to have the name of Lincoln boulevard adopted.

CITY HALL NOTES.

The Board of Public Works was authorized by the Council yesterday to advertise for bids for the reconstruction of the roadway floor of the Alhambra bridge. The work is estimated to cost \$1500 and is provided for in this year's budget.

Harry S. Graham has petitioned the City Council to vacate an alley in the block bounded by Eighth, Wilson, Main and Sacramento streets, as it is needed for the enlargement of an important industrial plant, which owns or controls all but three lots in the block. Considerable controversy has arisen in the Council over this subject. The City Engineer has submitted an estimate of \$1575 as the value of the land proposed to be vacated. The Board of Public Works recommends against the closing of the alley.

Fifty-seven per cent of the total frontage on Torrey street is represented on the petition asking that the name be changed to Normal avenue, and the Council yesterday ordered that the name be changed.

Because the two main river channels of the First-street viaduct are now temporarily supported on timber false work, in order that the piers may be renewed, the Board of Public Works has ordered that signs be placed prohibiting a speed of more than five miles an hour by vehicles using the viaduct. Motor trucks have been running over the viaduct at a speed to cause pronounced vibrations. The speed limit will be invoked for about six weeks, while the piers are being renewed.

A bridge has been completed to carry the South Los Angeles sewer across the Los Angeles river at McLean road in Vernon, and the Board of Public Works recommends the acceptance of the work from S. F. Kerns, the contractor.

The City Engineer reports that he has completed a topographical survey and map of that portion of Griffith Park which is proposed to be used for a Greek theater, to be donated to the city by Col. Griffith J. Griffith.

The Public Welfare Committee tomorrow will report favorably to the City Council upon the adoption of an ordinance restricting the expenditures that can be made on campaigns.

At the Courthouse.

WOULD RELIEVE THE SITUATION. LITIGANTS CONFERRING OVER IMPERIAL WATERWAYS.

Hope to Adjust Mexican Situation So as to Open Floodgates of Colorado Canal—Informal Talk With New Judge in the Case—Project Above Needs.

That a situation critical to the American interests is now confronting the California Development Company through the action of A. F. Andrade, receiver for the Mexican Canal, in driving out of Mexico the employees of Col. W. H. Holabird, receiver for the California company, was outlined to Judge Meyers at an informal conference held in Department Twelve yesterday.

This conference was called at the suggestion of Col. Holabird and his attorneys to talk over with Judge

Meyers the situation which developed in the Imperial Valley when Col. Holabird, receiver for the California Development Company, ordered Col. Andrade, receiver for the Mexican Canal, to remove his employees from the Imperial Valley. It was essential for the delivery of water to the Imperial Valley that the employees of Col. Holabird be removed from the valley. The water which flows through the Imperial Valley is controlled by the Colorado Canal, and the employees of Col. Holabird are necessary to operate the canal. The water which flows through the Imperial Valley is controlled by the Colorado Canal, and the employees of Col. Holabird are necessary to operate the canal. The water which flows through the Imperial Valley is controlled by the Colorado Canal, and the employees of Col. Holabird are necessary to operate the canal.

It is declared that Andrade's aim is to get the Imperial Valley under the control of the Mexican Canal, and to use a portion of this revenue to pay the employees of Col. Holabird. Andrade's aim is to get the Imperial Valley under the control of the Mexican Canal, and to use a portion of this revenue to pay the employees of Col. Holabird. Andrade's aim is to get the Imperial Valley under the control of the Mexican Canal, and to use a portion of this revenue to pay the employees of Col. Holabird.

Los Angeles Furniture Company

—43 Years of Integrity

The Celebrated "Lifetime" Furniture Sold Exclusively by This House in Los Angeles

We have selected this celebrated line of furniture for exclusive sale in this city because it stands for what its name implies—"lifetime" service—and SATISFACTORY lifetime service. Every piece is solidly constructed of selected Eastern white oak—beautifully finished in the popular rich light fume.

We can show you this splendid furniture in every needed piece of the living-room, parlor and den. Come in and see our magnificent display.

Important Furniture Specials

Furniture news that means cash saved in the pockets of all who take advantage of these and many other matchless specials offered this week. A real bargain feast for those who want good, honest furniture at the lowest prices in Los Angeles.

Dining Table, only \$22.25

A handsome, massive table built of solid quarter-sawn oak, rich golden finish, full 6 ft. extension, 41 in. top. This is a new design and looks especially attractive in the dining-room because of its massive build and decorative claw-feet. The regular low price is \$22.50. Special this week, \$22.25.

New Models Gas Ranges

Just received a carload shipment of the famous Buck's range which are sold in Los Angeles exclusively by us. They are the only really sanitary ranges made and surpass any other range produced in service, construction, attractiveness and economy. Quality guaranteed. The Buck's range is absolutely the cheapest, best value in Los Angeles—looks like and is built on the lines of a \$50 or \$75 range. Special this week \$22.25.

Dining Chair \$2.15

An ornamental, expensive looking chair—full box construction, wood saddle seat, made of solid Eastern oak, golden or fumed finish—the best value in Los Angeles—looks like and is built on the lines of a \$50 or \$75 range. Special this week \$2.15.

Parlor Stand

A marvelous L. A. Furniture special—top 18 in. square, 28 in. high. Strongly built of solid oak—in golden or birch mahogany finish.

Morris Rocker \$14.25

No Phone Orders Only 85c.

It will cost you to look at this luxurious rocker. Heavily adjustable back, either green or brown leather reversible cushions, rich golden oak or mahogany finish, 8 coil springs in seat. Regular price \$15.50. This week only \$14.25.

This Massive Mission "Lifetime" Davenport, \$37.50

A piece of furniture that will grace any home—made of selected quarter-sawn Eastern White Oak, in the beautiful and popular light fumed finish. Hand constructed—mortised and dovetailed. Automobile seat of genuine Spanish leather, supported by 36 coil tempered coil springs, a splendid value at \$48, special this week only \$37.50.

Our entire seventh floor is devoted to our rug and drapery departments. Here you will find the broadest selection, the newest ideas, the most distinctive patterns and values that will surprise you compared to the prevailing prices at the other stores. We cordially welcome a visit to this department.

Solid Oak Magazine Stand Only \$3.85

Just little places like these make a room attractive. It is essentially convenient—4 shelves in solid oak, rich golden oak or mahogany finish, 8 coil springs in seat. Regular price \$5.00. This week only \$3.85.

In another of our windows is shown this week a very fine bed room set in Georgian style, Louis XVI design.

That a situation critical to the American interests is now confronting the California Development Company through the action of A. F. Andrade, receiver for the Mexican Canal, in driving out of Mexico the employees of Col. W. H. Holabird, receiver for the California company, was outlined to Judge Meyers at an informal conference held in Department Twelve yesterday.

This conference was called at the suggestion of Col. Holabird and his attorneys to talk over with Judge

Meyers the situation which developed in the Imperial Valley when Col. Holabird, receiver for the California Development Company, ordered Col. Andrade, receiver for the Mexican Canal, to remove his employees from the Imperial Valley. It was essential for the delivery of water to the Imperial Valley that the employees of Col. Holabird be removed from the valley. The water which flows through the Imperial Valley is controlled by the Colorado Canal, and the employees of Col. Holabird are necessary to operate the canal. The water which flows through the Imperial Valley is controlled by the Colorado Canal, and the employees of Col. Holabird are necessary to operate the canal.

It is declared that Andrade's aim is to get the Imperial Valley under the control of the Mexican Canal, and to use a portion of this revenue to pay the employees of Col. Holabird. Andrade's aim is to get the Imperial Valley under the control of the Mexican Canal, and to use a portion of this revenue to pay the employees of Col. Holabird. Andrade's aim is to get the Imperial Valley under the control of the Mexican Canal, and to use a portion of this revenue to pay the employees of Col. Holabird.

California Development Company, which is the receiver for the California company, is the receiver for the California company, and is the receiver for the California company.

California Development Company, which is the receiver for the California company, is the receiver for the California company, and is the receiver for the California company. California Development Company, which is the receiver for the California company, is the receiver for the California company, and is the receiver for the California company.

Meyers the situation which has developed in the Imperial Valley, California, from the Mexican court order for Col. Holabird's extradition out of Mexico. It was also stated that Judge Meyers had been successful in the delivery of the Imperial Valley that the court had kept in condition. The water which flows through the valley owing to the conformity of the ground and brought back into the Imperial Valley. It was declared that Judge Meyers had neither money nor means to take care of the case and the court of Col. Holabird's extradition makes the situation more serious.

It is declared that Judge Meyers' aim is to get the mutual water companies to pay him for the water use in the United States, and at the same time to receive the same payments as made, it is stated, to go to build new canals in Mexico without previous Mexican government approval. Judge Meyers inherits this situation from Judge C. C. Conner, who yesterday had an opportunity to hear the facts presented to him from the sides. Being so informed, no action was taken by the court, although several suggestions were made, one being that the Southern Pacific be ordered to insure the water in co-operation with Col. Holabird. This suggestion was rejected by the court. The Southern Pacific, however, for the Southern Pacific, on the ground that the Southern Pacific is not a receiver for the Mexican company, such a suggestion from the railroad company might be construed as an undue influence.

Yves' suggestion that the other attorneys join him in a request to the Mexican courts to revoke the order under which Andrade drove Col. Holabird's employees off the canal was rejected by the court. Col. Holabird stated that the Imperial Valley water company is not a receiver for the Mexican company, and that the Imperial Valley water company is not a receiver for the Mexican company.

When Attorney Tuller suggested that the testimony in the case be taken by the Southern Pacific, he stated that the Southern Pacific is not a receiver for the Mexican company, and that the Imperial Valley water company is not a receiver for the Mexican company.

The conference was attended yesterday by Walter K. Tuller of New York, Millin & Stevens, for the Imperial Valley water company, and by W. R. Mathews and Stuart K. Mathews, for the Southern Pacific. The conference was held at the Imperial Valley water company's office.

DAM ABOVE NEEDS GREAT PROJECT REVEALED. The suits of John R. Avery, owner of the Chukawalla Dam, and others, assigned claim of A. R. Koenig, civil engineer, for a service rendered by him in the construction of the dam, were heard by Judge J. H. Koenig.

The testimony showed that about a year ago Tugue looked into the possibility of irrigating the Chukawalla Valley and the Palo Verde Valley, citrus fruit land. The Imperial Valley Development Company was organized for the purpose of irrigating the land. Tugue was made president and Koenig was made secretary.

Koenig's services extended from July, 1916, to August, 1917, and he was paid for a portion of his services. Then the balance was not paid. Koenig sued the company for the balance. The company denied the claim. The case was heard by Judge J. H. Koenig.

SHOWS DISCREPANCY. FRAME-UP SUSPECTED. Mrs. Ruth B. Foster, who is suing for divorce, called today to telephone call to her husband, Mr. J. H. Foster. The telephone call was made at 10:30 a. m. Mrs. Foster called to her husband and told him that she was going to the court. Mr. Foster did not answer the call.

COLD KILLER BEING TESTED.

Corona Man Invents Novel Frost Eradicator.

Wires Capture Freeze in Citrus Groves.

Dollar and Twenty-five Cents a Tree.

Citrus fruit men throughout the southland have been aroused by an experiment station being erected near Corona for the purpose of testing a wire cold eradicator.

William J. Russell, a Corona orange ranchman, believes he has found a solution of the frost problem and that by his invention he can keep fruit farms at an even temperature the year around.

The experiment station has been erected on his ranch and is being subjected to rigid investigation by a committee of citrus fruit men, consisting of the Chase brothers of Riverside, Thomas C. Bliss of Corona, J. J. Jameson of Corona and C. F. Feltner of Pittsburgh.

Russell's invention is based on the idea that current electricity of the atmosphere and ground can be joined. According to his figures the cost will be \$1.25 per tree.

While the invention is of paramount importance to citrus fruit men, even as a test, it holds out wonderful possibilities in other directions and Russell declares the system may be successfully installed over dwellings, vegetable or flower gardens, conservatories, cotton or tobacco plantations, etc., etc.

THE INVENTION.

In an interview yesterday Russell outlined his invention, stating: "I believe I have sufficient evidence to substantiate the claims that I have the key to the aerial problem of conducting hot and cold temperature out of the atmosphere."

"It is known that the atmosphere and ground have current qualities. This being true, there must be a way of joining them. By applying the proper rule a system may be perfected to conduct hot and cold temperature from one location to another, from the atmosphere to the ground and from the ground to the atmosphere."

"Temperature, like static electricity, does not always flow in straight or current. Sometimes it is at rest, sometimes in motion; other times it is hot or cold. It is in motion when it passes from one place to another."

"Both hot and cold temperatures have qualities of elasticity and may be expanded or contracted by greater attraction. When the cold temperature settles down on our citrus groves it is at rest or apparently asleep."

OVER TREES.

"It is when it is in this state that it does the most harm. In order to arouse it from its apparent sleep we must create a greater attraction than itself to set it in motion. This I believe may be done by attracting the cold to a certain point, where it will enforce an outlet to another location."

"This may be done by stringing a system of wires over the tops of the trees. The qualities in the metal wire having a greater attraction than the earth, the cold settles in the first point of attraction. And wire being a greater attraction of heat and cold, it is conducted and drawn into the earth's warmer current."

"Cold temperature naturally goes down and when the wires are fully charged with cold it will by its own nature be conducted to the wire to the earth's chamber of heat, which, on cold, frosty nights, is many degrees warmer than the atmosphere."

"It will take about thirty wires to a row of trees, the wires being grounded to every 150 feet to keep them open for free absorption of the cold in the atmosphere. It does not interfere with cultivation."

"THEM WAS THE HAPPY DAYS."

Friend of "Panama" Lyman Relates Incidents of Latter's New York Life of Ease.

A. J. Hill, special counsel to the Board of Supervisors, called at the County Jail yesterday and purchased three copies of Dr. John Grant Lyman's brochure entitled "Am I Insecure?" for which he paid \$1.50.

But Hill did not get the books for his own edification or instruction, but in behalf of a friend who attended school in New York with Dr. Lyman, who is temporarily in this city, and who feared to call personally, lest he might be held by the hypnotic eye of the clever defendant in the Panama Development Company fraud suit, now in the United States District Court. For this reason he is nameless here.

This friend of Dr. Lyman's boyhood days knew him when he was rolling in clover in the East, when he owned one of the finest yachts on the Hudson, and a beautiful home on the banks of that historic stream, when he had an equipage that could only be maintained for the natives to talk about for a twelve-month. This friend told Special Counsel Hill that it was nothing unusual for Lyman to clean up thousands of dollars on a single deal, only to lavish the money in high living.

The examination-in-chief and cross-examination of John Redpath, vice-president of the Panama Development Company, will occupy the most of the week in court. An effort will be made to show that Redpath made himself criminally liable when he signed alleged untrue statements as to the condition of the company at the request of Dr. Lyman.

EL MONTE NOTES.

EL MONTE, Oct. 25.—A water bond election has been called by the town trustees to be held Tuesday, October 28. This proposition is for \$25,250 bonds to be used for a municipal water plant. This is the first bond election called in the city of El Monte since it voted to incorporate. Much interest is manifested in the election, as there is great need of fire protection. A good deal of opposition is being developed, principally by those living in the incorporated district adjoining the town center.

Real Estate Men Use Knives.

Charles H. Winkelman and E. Stoltz, local real estate men, started using knives yesterday and before they left the beautiful lots in Panmar tract were cut as low as \$250. Terms were correspondingly reduced. Investigate this slaughter at Room 907 Trust and Savings building, Sixth Street, this morning. But do it quick. This cannot last.—Advertisement.

TRAVELERS TO GIVE BIG FAIR.

RAISING FUNDS TO ENTERTAIN LARGE CONVENTION.

Auction of All Sorts of Commodities to Be Prime Feature of "Country Fair" Given by Subordinate Councils of Drummers—Many Other Attractions Planned.

To raise funds for the entertainment of the Supreme Council in 1915, the United Commercial Travelers of Los Angeles will give a great "country fair" in the new R. D. Brownson building on West Seventh street. The fair will be open each evening from November 3 to 8, inclusive, and it is expected that thousands will attend.

A feature of the fair will be auctions, at which everything from a bar of soap to an accident policy will be auctioned off to the highest bidder. There will be only one medium of exchange in the fair, and that will be "U.C.T. currency." The traveling men's minstrel, working night and day to turn out a full complement of "bank notes" of all denominations. There will be many attractions, aside from the auctioneering, and visitors will be entertained with music and other entertainment.

The two subordinate councils in Los Angeles will have charge of the fair, the officers having direct supervision. They are:

Asst. City Council—Al G. Hoffman, senior counselor; Clarence E. Howard, junior counselor; James G. Cochran, past counselor; Charles R. Appan, elder, past senior counselor; C. Claude Wobber, secretary-treasurer; Frank W. Thompson, conductor; Martin J. Connolly, past; Frank S. Thompson, sentinel; D. M. Adams, chaplain; E. E. Harney, A. C. Wilson, Charles H. Priest, G. M. Sultenfus, Executive Committee.

Los Angeles Council—E. B. Sinclair, senior counselor; C. A. Truesdell, junior counselor; R. F. Peabody, past counselor; F. R. Phillips, past senior counselor; George Howard, secretary-treasurer; J. W. Alsop, conductor; Phil Kerr, past; Sam Eastman, sentinel; L. L. Liversidge, past; Charles H. Priest, G. M. Sultenfus, Executive Committee.

The United Commercial Travelers of America is composed of 79,000 members, scattered throughout the United States and Canada, and these members are commercial travelers, city salesmen and merchandise brokers, the only fraternity in the world composed of one craft of men. There are nearly a thousand commercial travelers in Los Angeles, representing every line of business, besides several thousand business men who formerly were on the road, but who still retain their identity in the U.C.T.

In the School Room Boys are Invited by Chalk Board, and by Signs, to School Children's News to Sustain Normal Conditions.

Brain Appreciated, and Now He's
in Jail.

When it came to the great Cupid
handicap, Nicholas Lusk never
played a favorite. He put his heart-
beats down on all entries, equally en-
thusiastic and impartial with all. And
because he did, being unusual, Nichol-
ai is entitled to discussion. Behind
the rosebush, out of sight, and out of
Nicholai's mind, were Josie, Josie's
mother—and Marie's husband.

Nicholai is in jail, much battered
and much depressed. Marie, Josie
and the madre all declare that Nichol-
ai, who is a very good fellow, must
have stumbled, and Pedro Espinoza
—why, he doesn't know what could
have happened. But Nicholai thinks
the rosebush went mad, wrapped
him, stung him, fang him, beat him,
and then stamped him.

Real Estate Men Use Knives.
Charles H. Winkelman and E.
Stoltz, local real estate men, started
using knives yesterday and before
they quit the beautiful lots in Pen-
nac tract were cut as low as \$225.

Terms were correspondingly slashed.
Investigate this slaughter at Room
907 Trust and Savings building, Sixth
and Spring Sts. But do it quick.
This cannot last. (Advertisement.)

Two girls.
Nicholai was in the way of becom-
ing much of a family hero until Fri-
day night, when he crept over to
Marie Espinoza's house and sang a
love song to her. Marie was lonely
and came out under the rosebush to
listen to the swain. He sang to her
of Russian love and then whanged his
guitar and told her about "snooky-
snoozy."

He had more of an audience than
Marie's two attentive ears. Behind the
rosebush, out of sight, and out of
Nicholai's mind, were Josie, Josie's
mother—and Marie's husband.

Nicholai is in jail, much battered

BIGGEST WORM IN THE WEST THE LOS ANGELES BOOK WORM.

With Mighty Strides He Carries Our Public Library Far
Beyond Every Other City This Side of St.
Louis—Facts and Figures.

PASSING San Francisco in a
walk, Denver at a trot, Seattle at
a canter and Omaha at a gallop,
the Los Angeles Public Library now
occupies an undisputed position at the
top of the long list of "People's Uni-
versities" located west of St. Louis.

And even St. Louis is looking ap-
prehenively over her book-stacks at the
amazing circulation record of the Los
Angeles institution for the twelve
months which ended September 30 of
this year—1,596,189 volumes—more
than 100,000 more than the number
for the regular fiscal year which end-

ed June 30, despite the fact that July,
August and September are the dull-
months of the twelve from the libra-
rian's standpoint.

Some idea of the great growth of
the library can be obtained from the
figures for the past three fiscal years
—1911, 862,879 volumes; 1912, 1,008,
080; 1913, 1,596,189. At the present
rate of increase the present fiscal
year bids fair to close with a record
of 1,600,000 volumes circulated—three
for every man, woman and child in
Los Angeles. The next year, which
will be spent in fine new quarters at
Fifth and Broadway, will indubitably
set marks to make any city in the

country outside of New York, Phila-
delphia and Chicago look to its laus.

FIGURES THAT PROVE.
There are now 225,000 books owned
by the library, about 50,000 of which
are in the branches. More than 100
men and women are employed. In
the average city, according to the
figures of the American Library As-
sociation, the cost of library circula-
tion is 14 cents a volume. In Los
Angeles this year, with a total ex-
penditure of \$170,000, it will be about
12 cents a volume.

Besides the main library there are
twenty branches. Also the local li-
brary has access to the State library,
and any book requested that cannot
be had here—as is seldom the case—
may be borrowed from the State.

There are on file for the use of the
reading public almost 700 magazines,
many of which are duplicated; over
seventy newspapers are received daily,
as well as some fifty weeklies from
as many different cities and towns
throughout California.

For one month last year the readers
were counted as they passed into the
reading-room. The largest number
for any one day was 1070; the small-
est number 748.

The library has about 50,000 books
of fiction. Additionally, there are
over 14,000 books of juvenile fiction.
There are almost 2000 books on mu-
sic alone, and 6000 books dealing ex-
clusively with religion. Social science
is represented by 13,000 volumes and
there are an endless number of oth-

er books dealing with an endless num-
ber of subjects.
In ten years the library has lost
including all departments of litera-
ture, over 15,000 volumes. During
that time but one newspaper has
strayed off and 274 magazines.

During the past year pamphlets
have been issued on "Books for Chil-
dren's Christmas Gifts," as well as a
"Select List for Boys and Girls," a
list of "Books on Business," "Books
on Chemical Technology," which doesn't
happen to be the most popular set,
and many others.

THE "PEOPLE'S UNIVERSITY."
The public library is the great social
leveler of Los Angeles. Every-
one is served alike by the invisible
goddess of silence who broods there.
Only the softest of whispers are heard;
all feet tread lightly. Activity is
everywhere but it doesn't bustle.

The moment one steps out of the
elevator the voice is lowered. Yet
there is nothing awesome, nothing
funereal. It is quiet, restful, pleasant,
and it is hanging around in the
city below, and that world is dis-
tinctly viewed from the library
windows. One seems apart from it as
a spectator at the theater, watching a
mob scene—it is all real, but not
personal.

Some of us have experi-

enced politeness without
libraries. But none of us has
attended to a book at home. It is
being attended to by the low-down
st. Case is recognized, but not
called brains.

They are busy, too. In fact, to
go to a library with a curious person
being exceeded by the number of
the library than any other place
the borrowing of books. The
floor of a young man whose business
it was to be answered the most
curious persons. At last it was
tended that the curious person was
by thought the young man was
ling else to do.

From the well-known fact
it was learned that the library
library ranks twelfth in the
of the number of books
loaned.

It was also learned
outstanding records of the
the records of the library
enough believed what the
how many people read in the
books. It is a fact that the
where the goddess of silence
shrined.

AFTER ALL CLAMOR.
The library is as much
of a social leveler as the
of the city.

It is a fact that the library
of the city. It is a fact that
the library is as much of a
social leveler as the city.

It is a fact that the library
of the city. It is a fact that
the library is as much of a
social leveler as the city.

It is a fact that the library
of the city. It is a fact that
the library is as much of a
social leveler as the city.

It is a fact that the library
of the city. It is a fact that
the library is as much of a
social leveler as the city.

It is a fact that the library
of the city. It is a fact that
the library is as much of a
social leveler as the city.

ALL MEN ARE EQUAL IN THE LIBRARIAN'S SIGHT.

Now the biggest in the West. The peculiar value of the library lies chiefly
in the fact that it is able to serve every one of whatever class, provided
he or she can read—or even look at pictures.

The Great Leveler.
ALL MEN ARE EQUAL IN
THE LIBRARIAN'S SIGHT.

SCENE: Public Library. Place:
Los Angeles. Time: 10:35 o'clock
a.m. Walls of books guarded by
iron grating, desks with young women
in attendance; long reading tables
crowded, scores of people coming to
and from the elevator.

Enter in haste a young man with
a trifling mustache and flushed face.
Young man (to woman attendant):
I want your most authentic
book that would be of value to a
bridge—

Enter Middle Aged Matron:
calmly.
Middle-aged Matron: I am due to
read a lecture at the Mothers' Club
next Tuesday afternoon at 3 o'clock
on the evils effects of spanking ba-
bies, and I should like the best au-
thority on that important matter
than you can give me. It is so very
important—woefully wrong—I am
sure that there are many scientific
works on the subject. (Attendant re-
fers Middle Aged Matron to refer-
ence list.)

Enter Sweet Young Thing. (Very
eager.)
Sweet Young Thing: I am so au-

looking for a copy of Richard
Lovelace's "Ode to a Skylark"—
you know—the one that starts, "Hail
to thee blithe spirit!"—you recall it?
I have a young gentleman friend who
dotes on it and I want to commit it
to memory. He calls to-morrow even-
ing—do you think I could learn it so
soon? (Young woman attendant se-
cures copy of Lovelace's poems and
also of Shelley's, inviting the sweet
young thing to take her choice, tell-
ing him, however, that Mr. Lovelace
neglected to write the ode in ques-
tion.)

Enter misfit person, very daintily.
S. P.—I want a book—I forget its
name, but it has a picture of a man
and a woman in the front—could
you tell me what it is? (Attendant
turns him over to fiction department
and greets rough-looking man in bat-
tered derby.)

R. L. M.—Say, I want something
that will give me an idea about the
number of goats raised in Australia—
"Hurried lady—Could you tell me
who wrote "Dorothy for Love?"
It's a peach of a book, but I can't
seem to find it in the catalogue.

High school girl: I am after a
poem. I can't remember its title, and I
don't know who wrote it, but I want
it.

And so they run, hour after hour,
all day long, and into the night come
people wanting this book or that book
and don't know themselves which
book it is, and all day long the at-
tendants stand and listen, pleasant
always pleasant and smiling and will-
ing. Verily, she who worketh in a
library, hath no snaf.

And so they run, hour after hour,
all day long, and into the night come
people wanting this book or that book
and don't know themselves which
book it is, and all day long the at-
tendants stand and listen, pleasant
